The Possible Benefits of Organic Glandulars, Dietary Supplements

- Support of metabolism and physiological function of specific glands
- Obtained from safe, inspected sources and processed to retain maximum activity

Description

Glandular tissues are rich sources of nutritional factors that support the metabolism and physiological function of specific glands. When prepared with sufficient technical sophistication and sensitivity to their delicate nature, they can retain a significant portion of their biological activity and therapeutic value. Properly processed glandular material is effective because the biologically active components, including enzymes, soluble proteins, natural lipid factors, vitamins, minerals and hormone precursors have not been eliminated or destroyed. Allergy Research Group® glandulars are lyophilized (freeze-dried). This means the glands are quickly frozen at the time of collection and subjected to a high vacuum, which removes moisture by direct vaporization from the frozen state. This meticulous process of collection and conversion of the glandular material to dry powder minimizes degradation and maintains the naturally-occurring levels of active components. The fats are not removed in the process, as they contain important soluble vitamins, minerals and cofactors. Furthermore, the removal of fat by one of the available methods, for example, alcohol extraction, would degrade the material.

Long before the concern about Bovine Spongiform Encephalopathy (BSE), we obtained our glandular products from government inspected, range-grazed animals, raised in New Zealand without the use of pesticides, hormones or antibiotics. They are totally free from BSE and a number of other diseases that do not occur in New Zealand. All glandulars are subject to in-process as well as finished product testing. These tests include microbial contamination to assure acceptable total bacteria counts and absence of pathogenic bacteria. Our glandulars are highly potent and are generally well tolerated.

Adrenal, Organic Glandular supports the entire adrenal gland, both medulla and cortex portions. The adrenal cortex is the outer portion of the adrenal gland and is involved in the secretion of a variety of adrenal hormones, mainly cortisol. The medulla is the inner portion of the adrenal gland and is involved in the synthesis and secretion of epinephrine (adrenaline) and norepinephrine.

Adrenal Cortex, Organic Glandular supports the cortex portion of the adrenal gland. The adrenal cortex is the outer portion of the adrenal gland and is involved in the secretion of a variety of adrenal hormones, mainly cortisol.

Hypothalamus, Organic Glandular provides nutritional support for the hypothalamus, which is considered to be the controller of the limbic system. The hypothalamus helps regulate many aspects of emotional behavior, and plays a role in most of the vegetative and endocrine functions in the body, including regulation of body temperature and body water, and secretion of growth hormone, thyroid hormone and sex hormone.

Immu–Gland Plex, Organic Glandular is a combination of glandulars for broad-spectrum nutritional support of the glandular systems.

Liver, Organic Glandular supports the liver, a major organ of detoxification, fat digestion, absorption and metabolism.

Pancreas, Organic Glandular supports the function of the pancreas, important for digestion, modulation of immune function, and balancing of blood glucose levels. (Also see: Pancreas, Organic Glandulars.)

Thymus, Organic Glandular supports the function of the thymus gland, the master gland of the immune system.

TG 100, Organic Glandular supports thyroid gland and the glands associated with thyroid function.

Adrenal, Organic Glandular, Item # 70460, 75 capsules
Each capsule contains: Adrenal Tissue (Bovine) 300 mg
Other ingredients: Cellulose, silicon dioxide, stearic acid.
Suggested Use: As a dietary supplement, 1 capsule daily with a meal, or as directed by a healthcare practitioner.

Adrenal Cortex, Organic Glandular, Item # 70530, 100 capsules
Each capsule contains: Adrenal Cortex Tissue (Bovine) 250 mg
Other ingredients: Cellulose, magnesium stearate.
Suggested Use: As a dietary supplement, 1 capsule daily with a meal, or as directed by a healthcare practitioner.

Hypothalamus, Organic Glandular, Item # 70810, 100 capsules
Each capsule contains: Hypothalamus Tissue (Bovine) 500 mg
Other ingredients: Cellulose, stearic acid.
Suggested Use: As a dietary supplement, 1 or 2 capsules two or three times daily with meals, or as directed by a healthcare practitioner.

Immuno-Gland Plex, Organic Glandular, Item # 70450, 60 capsules
Each capsule contains: Adrenal Tissue (Bovine) 125 mg
Pancreas Tissue (Porcine) 125 mg
Thymus Tissue (Ovine) 125 mg
Spleen Tissue (Bovine) 125 mg
Suggested Use: As a dietary supplement, 1 capsule two or three times daily with meals, or as directed by a healthcare practitioner.

Liver, Organic Glandular, Item # 70470, 125 capsules
Each capsule contains: Liver Tissue (Bovine) 500 mg
Other ingredients: Silicon dioxide, magnesium stearate.
Suggested Use: As a dietary supplement, 1 or 2 capsules two or three times daily with meals, or as directed by a healthcare practitioner.

Pancreas, Organic Glandular, from pork, Item # 71640, 60 capsules; Item # 71650, 720 capsules
Pancreas, Organic Glandular, from beef, Item # 71620, 90 capsules
Pancreas, Organic Glandular, from lamb, Item # 71630, 90 capsules
Each capsule contains: Pancreas gland (from beef, lamb or pork) 425 mg
Other ingredients: Cellulose, stearic acid.
Suggested use: As a dietary supplement, 1 capsule three times daily, taken ½ to 1 hour before each meal, or as directed by a healthcare practitioner.

TG 100, Organic Glandular, Item # 71800, 100 capsules
Each capsule contains: Vitamin C (Ascorbic Acid) 120 mg
Adrenal Tissue (Bovine) 5 mg
Pancreas Tissue (Porcine) 5 mg
Thymus Tissue (Ovine) 5 mg
Spleen Tissue (Bovine) 5 mg
Thyroid Tissue (Bovine) 40 mg
Other ingredients: Dicalcium phosphate, cellulose, magnesium silicate, magnesium stearate.
Suggested Use: As a dietary supplement, 1 to 3 capsules daily with meals, or as directed by a healthcare practitioner.

Thymus, Organic Glandular, Item # 71610, 75 capsules
Each capsule contains: Thymus Tissue (Ovine) 500 mg
Other ingredients: Cellulose, stearic acid.
Suggested Use: As a dietary supplement, 1 or 2 capsules two or three times daily with meals, or as directed by a healthcare practitioner.
